

THE WEEK THAT WAS

To gain the kingdom of heaven is to hear what is not said, to see what cannot be seen, and to know the unknowable. That is Aloha. All things in this world are two: in heaven there is but One. (Queen Lili'uokalani)

UH Manoa Public Health at Shim Hall

Social and Behavioral Health Sciences Prof. Vanessa Buchtal and UH Manoa Public Health undergrad Hina Claerbout joined our Saturday breakfast to survey neighborhood awareness of DA BUX program, where EBT holders can use their card to purchase locally grown fresh fruit and vegetables at participating supermarkets like Times, KTA Superstores, Shima's Supermarket, and Foodland. Participants received information about the program and a \$20 gift card to Times. Mahalo to Vestry Clerk Darsha Lee and House Managers Jeremy Castro and Ku Kaahanui for working with UH Public Health to offer this opportunity for our friends to share their wisdom!

Happy Mother's Day!

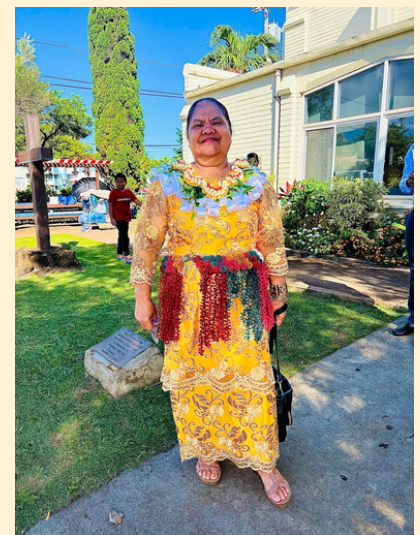

You have been a beautiful example of God's Love.

Proverbs 31

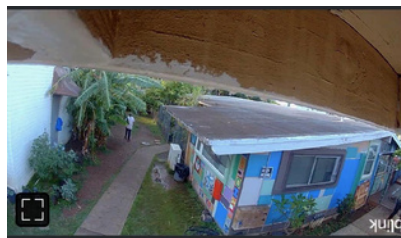

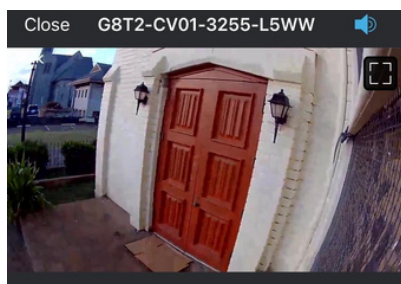

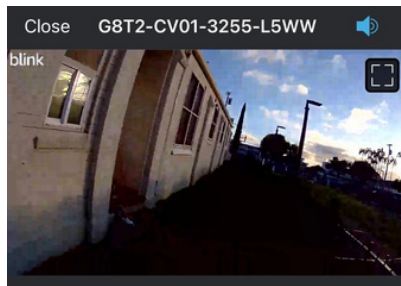

Fane & Fran (above)

Ana (below)

Mahalo to Saturday Breakfast cooks, Faye, Dana, Blayne, and Charles!

Video System Keeping a Lookout

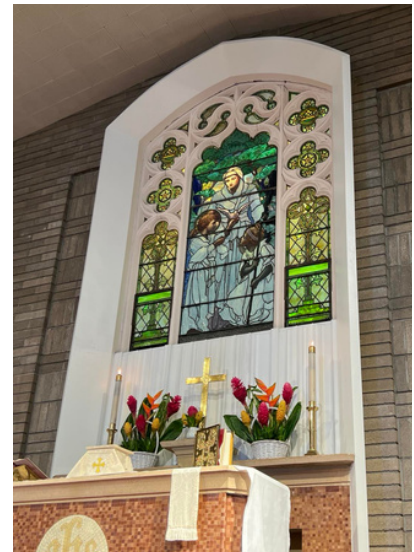

The Wallyhouse managers and Container House residents are the eyes and ears of our campus. But they can't be anywhere and everywhere all at once! Every so often we want to know what is happening at St. E.'s when we're not around, So Parish Administrator Bill ordered BLINK cameras and placed them around campus. Kalihi-Palama Health Center has installed cameras around Shim Hall, and we just wanted to keep a closer eye on the church doors and high traffic areas near the Shim Hall and Wallhouse entrances. Bill can actually monitor these cameras through his phone, using the church WiFi. He can even hear what's being said and talk to people through the cameras...how's them apples! Catholic Worker Houses are a place of Radical Hospitality. With the cameras, we can welcome our friends and make sure everyone stays safe and protected. Thank you, Bill for your hard work on this campus safety and security project!

Food Handler Safety Course Graduates!

On Friday, May 10, Sexton Charles Steffey, Faye Mariano (container resident), Doug Earl (container resident), and Cathy Lowenberg completed the Food Handler Safety Course at the Department of Health's Food Safety Branch in Aiea. The two hour course reviewed food

temperature safety for holding and serving, labeling perishables, proper use of chemicals to manually clean and sanitize food equipment and utensils, proper food storage, rapid cooling, and cross contamination. Everyone passed the exam, earning 3 year food handler certifications! Now let's get cooking!

We are stewards of the finest ecclesiastic Tiffany window in Hawai'i. This 1904 window includes drapery glass used for the robes and shattered glass for the foliage, both innovations of Tiffany. The window was the gift of the William Procter family of Cincinnati, of Procter and Gamble fame, in memory of Charlotte Elizabeth Procter. Ardent supporters of the mission, the Procters funded the construction of the original Shingle Style church on our property. St. Elizabeth's was formed as a mission of St. Andrew's Cathedral to tend to the spiritual needs of Chinese immigrants in the Kalihi-Palama district. With the demise of the original church in 1952, the window was retained and placed in the new building. The modern windows in the nave and clerestory date from 1977 and are the work of Judson Studios of Los Angeles. The front window was designed by Bernard Atkins in 1991 and fabricated by Raymond Ho.
